LIFELONG LINKS CALL CENTER DESIGN EVENT

MAY 3 - 5, 2017

Why Are We Here?

- LLL Call Center is becoming the front door for all the MHDS regional offices
- Deep review of the system from the view of our consumers, our staff, our partners
- Explore how to merge functions and staff where co-located utilizing LifeLong Links as the vehicle to make us more alike than different
- Co-locating staff throughout our shared regions for local resource centers and providing access to Harmony as appropriate for functions of LLL

From the Time a Call is Received

To the Point an Appropriate Referral is Made

How Do We Get There?

Kristi Shannon

- Developing an efficient and standardized process for the LifeLong Links Call Center
- Defining the role of the statewide call center
- Enhancing collaborations
- Defining a method of assessing and monitoring the process for quality outcomes

Simpler – Faster - Better

Shelly Sindt

- Ensuring that the process is customer-centered
- Standardizing the terminology utilized in the call center
- Identifying roles and responsibilities of the call center staff throughout the process.

What is Design for Lean Six Sigma?

Todd Rickert

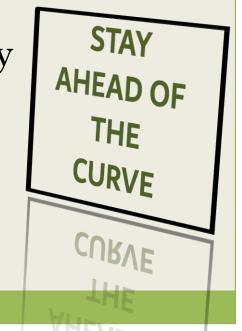

- Methodology to create a new service, product or process
- Applicable to any project that needs a significant amount of new design
- Strong emphasis on capturing and understanding the customer and organization needs

SWOT

Kristie Wiltgen

Strengths

- Creative staff/delivery of service
- Staff/Agencies are the experts and leaders
- Call center is established

Weaknesses

- Understanding generational and population differences
- Perception that service provided is free
- Resistance to change

Opportunities

- Empower staff/they are experts with knowledge
- Utilizing one name LLL here to help others
- Expanded collaborations

Threats

- Loss of autonomy (perceived)
- Changing political landscape
- Limited funding/resources
